

ELEMENTS OF A VISUAL COMMUNICATIONS PLATFORM

SOLUTIONS FOR K-12

Discover Video delivers solutions that help meet the unique needs of the K-12 school environment, from supporting the flipped classroom and BYOD to delivering video morning announcements and providing priority alerts to teacher and staff. K-12 schools use our solutions to deliver graduations, sports, and other live events on the Internet to family and friends.

SOLUTIONS FOR HIGHER-ED

Discover Video enables colleges and universities to capture their lectures and deliver them to students on campus, in dorms, or at home – allowing them to review materials and learn at their own pace. In addition, Discover Video solutions can be used to stream major events or provide school information via digital signage on campus.

SOLUTIONS FOR GOVERNMENT

Discover Video helps local, state, and federal government by providing the tools needed to stream video in real-time to audiences internally, shared between organizations, or to the public over the Internet. Our solution is ideal for delivering government meetings to constituents live or on-demand.

SOLUTIONS FOR CORPORATE

Discover Video enables companies to deliver secure corporate communications, product and compliance training, and more to everyone within in an organization. From the HQ, to the home office and even to the mobile devices of employees on the go, Discover Video improves communication.

SOLUTIONS FOR HEALTHCARE

Discover Video provides a solution that allows everyone in an organization to stay up-to-date, even remote locations, by allowing them watch live training or the recorded training on-demand when they can't be there in real-time. Our solutions are used for clinical skills assessment and Grand Rounds to help educate future medical professionals.

CAPTURE

Discover Video provides a variety of video encoders for live streaming and recording. They allow you to deliver video from smartphones, tablets, or computers using our high quality encoding software.

Streamsie Pro and Streamsie iOS

App for smartphones, tablets, PCs, and Macs to record and stream live. Use with internal cameras or connect to webcams or professional cameras with our Captiva adapters.

Rover

A lightweight mobile streaming system that incorporates Streamsie Pro encoder onto a powerful laptop computer with an HDMI adapter for capturing and streaming video and VGA.

Spirit

Quiet operation makes this high performance desktop system ideal for permanent installations that require HD quality. Great for boardrooms, lecture halls, media centers, and TV studios.

StreamEngine

StreamEngine for delivering up to 16 video sources from one encoding platform. Ideal for internal cable TV distribution or 24x7 webcasting.

Spider

Stream and Record up to four independent live videos plus a PIP mix. Ideal for lecture capture and scheduled events.

Mantis® and Hornet

Self-contained appliances for live HD streaming from cameras or other video sources. Great for applications with DEVOS, ARCUS, or third-party streaming services.

MANAGE & DELIVER

The DEVOS content management system is the center of the Discover Video visual communications platform. It serves as a central storage and management hub for all your captured video content, storing it securely in an easily searchable database and enabling it to be sent to any display type.

DEVOS has 3 configurations

- 1) **On Premises:** Install software on your own, purchase a DEVOS Rack Server-16, or for small organizations a DV Express.
- 2) **Cloud:** Fully hosted expandable storage.
- 3) **Hybrid:** On premises and cloud.

ARCUS CDN

Discover Video's subscription-based online streaming service delivers video over the Internet to a virtually unlimited number of viewer's computers and mobile devices. Perfect for delivering live events, 24x7 streaming, and video on demand.

StreamPump®

Branch office cache replicates live and video on demand content to save bandwidth.

USES

Discover Video's visual communications platform provides easy-to-use and scalable products for managing and delivering your streaming video content securely to viewers across your own network or over the Internet. Easily combine these products to create a hybrid solution that will enable you to reach your audience anywhere in the world.

- Live streaming of video, audio, and presentations
- Event webcasts to record and distribute meetings, lectures, events
- Video on demand
- Digital signage to display news, announcements, and schedules
- Live presentation sharing with audience chat, questions, and polling, and ability to send email invitations and monitor viewing
- Cable TV streaming with custom channel guide
- Video training/lessons with ability to insert questions and receive feedback
- Priority alert for emergency notifications
- Viewer tracking/statistics
- Learning path to enable structured online courses for training or education
- Secure delivery to computers and mobile devices

DISPLAY

The power of Discover Video is in its ability to cost effectively and efficiently deliver live and on-demand video to audiences wherever they are on almost any video enabled device.

Desktop Mac, PC & Chromebook

Live and on-demand video can be delivered to computers on the local network or over the Internet without the need for special software.

Mobile Smartphones and Tablets

Easily stream live and on-demand video to Apple devices, such as iPhones® and iPads®, as well as to Android™ tablets and smartphones.

IPTV

Enable any television, monitor, or video projector to access and play live and on-demand HD or SD video using the Discover Video Set Top Box (STB) or a special add-on for the Roku® player. Dynamic TV Channel Guide allows for easy program navigation.

Digital Signage

Add live and recorded video as well as images, RSS feeds, and PowerPoint/Google slides to your digital signs for a more rich and engaging message. Options for displaying digital signage include: SignStick-2 or Media Player.
