

DVEXPRESS Visual Security Package for Georgia Schools

Enhance Security and Mitigate Disaster with Video and Text Messaging

The DVEXPRESS Visual Security Package has helped schools across America to improve security, prepare for disasters, and manage emergencies. This exclusive visual security package provides real-time video communication throughout the school, perimeter, and community.

Easily and economically stream local and national news, safety information, and emergency instructions to any TV, desktop, or mobile device.

What's Included

DVEXPRESS with Priority Alert

Create and deliver live or recorded video alerts to classrooms, foyers, auditoriums, etc. with DVEXPRESS, an all-in-one video management and streaming platform.

Priority Alert interrupts regularly scheduled programming with live video announcements and real-time updates to any screen or mobile device.

DVEXPRESS and Priority Alert can interface with local police and fire departments, sending SMS text alerts and real-time video from cameras within and around your buildings.

Priority Alert Activation

Alerts for weather, fire, and intruder drills and emergencies, are activated via a **simple web interface** from any PC, Mac or mobile device, or a **dedicated panic button**. (12 Remotes)

SignStick® Media Players

SignStick is small HDMI **media adapter** that communicates with DVEXPRESS to display live video announcements for real-time updates on any TV or monitor. (6 Players)

Scorpion Encoders

Scorpions encoders are **single channel live IPTV streaming appliances** that can be placed where needed. (4 Modules)
