INDUSTRY APPLICATIONS

K-12

Discover Video provides economical solutions that help meet the unique needs of the changing K-12 school environment. Easily pivot from distance learning and hybrid classrooms to remote only; create student-produced morning announcements, stream IPTV, and manage video content and digital signage. Our Priority Alerts to teachers and staff enhance school security. K-12 schools can serve a wider audience by delivering graduations, sports, and other live events via the Internet to family and friends.

HIGHER-ED

DiscoverVideo enables colleges and universities to conduct online classes, capture their lectures, and deliver them to students wherever they are - on campus, in dorms, or at home. Students can engage in real-time, or review materials and learn at their own pace. In addition, Discover Video solutions can be used to stream major events or provide school information via digital signage on campus.

GOVERNMENT

DiscoverVideo helps local, state, and federal governments by providing the tools needed to live stream video to audiences internally, have meetings between organizations, or to share content with the public over the Internet. Our solution is ideal for delivering government meetings to constituents live or on-demand.

CORPORATE

Discover Video enables companies to deliver secure corporate communications with video conferencing to everyone in an organization. Conduct product and compliance training and improve communication from HQ, to remote workers, and to the mobile devices of employees on the go.

HEALTHCARE

Discover Video provides streaming solutions that allow everyone in an organization to stay up-to-date, even remote locations, with live and recorded on-demand training. Our scalable network of tools help educate future medical professionals, with video streaming for clinical skills assessment and Grand Rounds.

STREAM. RECORD. CONFERENCE. MANAGE.

STREAM & RECORD

Discover Video provides a variety of video encoders for live streaming and recording. Deliver video from smart phones, tablets, or computers using our high quality encoding hardware and software.

Streamsie® , Streamsie iOS and OBS

Apps for smart phones, tablets, PCs, and Macs to record and stream live. Use with internal cameras or connect to web cams or professional cameras with our Captiva adapters.

Rover

A lightweight mobile streaming system that incorporates Streamsie Pro and OBS encoders onto a powerful laptop computer with an HDMI adapter for capturing and streaming video and VGA.

Spirit

Quiet and user-friendly for the non-technical, this high performance desktop video encoding system is ideal for permanent installations that require HD quality. Great for boardrooms, lecture halls, media centers, and TV studios.

Scorpion IPTV Encoder

The Scorpion live IPTV encoder system is available as 8, 4, and single channel versions. Scorpion is ideal for 24x7 HD live unicast or multicast streaming.

Mantis®

Self-contained encoder for live HD streaming from cameras or other video sources. Great for applications with DEVOS, ARCUS, or third-party streaming services.

Spider

Stream and record up to four independent live videos plus a PIP mix. Ideal for asyncrhnois learning, lecture capture, and scheduled events.

CONFERENCE & MANAGE

The DEVOS content management system is the center of the Discover Video visual communications platform. It is a live streaming server AND a central storage and management hub for all your captured video content. Your video is securely stored in a searchable database, sharable to any display.

DEVOS SERVER

On Premises:
Available in various sizes as Rack 16, Stinger or DV Express. Can also be purchased as software (VM).

Cloud:
Hosted storage, fully expandable.

Hybrid:
On premises and cloud.

ARCUS CDN

A subscription-based on-line streaming service delivers video over the Internet to a virtually unlimited number of viewer's computers and mobile devices.

Perfect to deliver live events, 24/7 streaming, and video-on-demand.

StreamPump®

Replicate live and cache video-on-demand content at branch offices and campuses to save bandwidth. Various sizes to fit any organization.

APPLICATIONS & FEATURES

DiscoverVideo's multimedia platform provides easy-to-use and scalable products for synchronis and asynchronis learning and communication. Manage and deliver your streaming video content securely to viewers across your own network or over the Internet. Combine products to create a hybrid solution to serve your audience anywhere in the world.

- Host private and secure video conferencing with livechatandroom management
- Live stream presentations, video, and audio with chat, questions, and polling.
- Stream, record and distribute meetings, lectures, and events.
- Serve video-on-demand.
- Serve video training lessons with embedded questions and receive feedback.
- Use Learning Path for structured on-line video lessons
- Provide ADA compliant and searchable closed captioning for live or video-on-demand content.
- Control and display digital signage with news, announcements, and schedules.
- Send priority alert of emergency notifications by video or SMS.
- Track viewer statistics.
- Stream cable TV with custom channel guide.

DISPLAY

Tap into the power of economically and efficiently delivering live and on-demand video to any audience anywhere.

MAC, PC & CHROMEBOOK

Live and on-demand video can be delivered to computers on the local network or over the Internet without the need for special software.

MOBILE

Easily stream live and on-demand video to Apple devices, such as iPhones® and iPads®, as well as to Android™ tablets and phones.

IPTV

Enable any television, monitor, or video projector to access and play live and on-demand HD or SD video using the Discover Video Set Top Box (STB) and Roku® player. Dynamic TV Channel Guide allows for easy program navigation.

DIGITAL SIGNAGE

Add live and recorded video as well as images, RSS feeds, and PowerPoint/Google slides to your digital signs for a more rich and engaging message. Options for displaying digital signage include: SignStick® or Media Player.
